Dulux Acratex® Roof Restoration System

A roof provides more than just shelter. It is an extension of a home and should be given the same love and care to match the inside’s look and feel. That’s where we come in.

Dulux Acratex’s Roof Restoration System is an opportunity to refresh, revitalise and transform a roof to not only reflect a person’s home, but their personal style too.

Backed by the most trusted paints brand in Australia¹, we provide a full restoration system.

To reinforce Dulux Acratex’s quality, we offer a 15 year warranty on product performance covering aspects like film integrity, peeling and cracking as well.² Let us increase your street appeal and allow you to give homeowners the roof they deserve.

THE FULL ROOF RESTORATION PROCESS

The *Dulux Acratex* Roof Membrane coating system is a full restoration process installed by *Dulux Acratex* Approved Roofing Applicators that gives customers a 15 year material warranty².

TILED ROOF	METAL ROOF
1. INSPECTION The entire roof is inspected for damaged tiles, loose or missing bedding, moss and lichen.	1. INSPECTION The entire roof is inspected for damage and preparation requirements.
2. CLEAN The roof is high pressure washed with water directed away in an environmentally friendly manner using lay-flat hosing as required.	2. CLEAN The roof is high pressure washed with water directed away in an environmentally friendly manner using lay-flat hosing as required.
3. REPAIR Damaged tiles and faulty valley irons are replaced where required. Ridge capping is re-bedded, where required.	3. REPAIR All rusted and damaged roof screws, fittings, faulty sheets and valley irons are replaced as required.
4. POINTING Use Acratex Roof Pointing where required. Note: There is also the option to complete these step following the application of Roof Membrane.	4. STERILISE Fungal and algal spoilage must be treated before recoating. Acratex PrepTreat is applied after cleaning to sterilise the surface. This step may not be required in all cases.
5. STERILISE Fungal and algal spoilage must be treated before recoating. Acratex PrepTreat is applied after cleaning to sterilise the surface. This step may not be required in all cases.	5. PRIMER/SEALER Specialist corrosion control primers are installed where required. System options for Galvanised, Zinalume® or precoated metal.

REDS

Traditional red roofing is an Australian iconic element. To create a traditional feel you can't go past these familiar earthy reds and terracottas for a timeless appeal. There are so many options when creating a colour scheme with a red roof. As these colours are earthy you can use natural greys, greiges, greens and stone colours.

GREENS

As greens are drawn from natural surroundings, they are a perfect colour to use on the exterior of homes. Greens range from light grey green shades to darker olive tones. Greens are so versatile and work well with so many colours due to their earthy and muted undertones. Greens can provide an organic setting for a roof to camouflage in nature's bush canopy.

DULUX® ACRATEX® ROOF MEMBRANE

NEW and improved formula helps deliver excellent colour durability for long life protection.

Roof Membrane

Dulux Acratex Roof Membrane has been improved with HueTech technology to offer superior UV and excellent colour fade resistance, allowing the colour to stay truer for longer[^]. With improved application and colour benefits, the full range is suitable for collection of drinking water and now available with a 15 year warranty.* Range available in popular Dulux and Colorbond® colours for better looking and longer lasting protection.

Leading technology

Dulux Acratex Roof Membrane is based on HueTech technology which is a full acrylic elastomeric technology that provides coatings the flexibility and resistance to withstand the harsh Australian Sun. Coatings are weather tight and designed to provide excellent UV and colour durability.

Under the harsh Australian Sun, using the new Dulux Acratex Roof Membrane, the colour stays truer for longer[^].

Faded colour after years of sun exposure.

DULUX ACRATEX ROOF POINTING
